## PROJECTS

### SPACE.

LEAD BACK-END

Full-stack web application that provides users a way to share/rent out available workspaces and conversely find workspaces to use. Built collaboratively using an agile work environment, Ruby on Rails, Javascript, HTML, Bootstrap, and CSS, and utilizing AJAX, Google Maps API, Stripe API, and AWS for photo storage.

### ROTTENPOTATOES

LEAD FULL-STACK

A riff off Rotten Tomatoes, this application hits the Movie Database API to provide movie details for all upcoming and currently showing movies. RottenPotatoes includes ratings, reviews, searches, and sorts. This application was built using Ruby on Rails, Javascript in combination with AJAX, CSS, and HTML.

### 2048

FULL-STACK

This math game challenges you to match tiles that add up to 2048. This application was built using vanilla Javascript along with jQuery, AJAX, and CSS. This is a solo project that showcases advance algorithms alongside clean and useable design.

## ACTIVITIES/VOLUNTEER

### ATX POLITICAL HACK-A-THON

Participated in agile workflow to improve democratic voter turnout in Texas by integrating the VAN API with several social media APIs including Facebook, Eventbrite, and Twitter to comb for potential democratic voters.

### AUSTIN COMMUNITY TRANSGENDER WORKING GROUP

Grass roots group that meets to discuss, identify, and implement actionable goals for Austin's transgender and non-binary community. We directly counsel the City of Austin LGBTQ Quality of Life Advisory Commission on the community's behalf.

## EXPERIENCE

### FULL-STACK WEB DEVELOPER

Dev Bootcamp | 2017

- Navigated solo, paired, and agile workflow on projects with tight deadlines and simulated client-feedback throughout.
- Learned concepts of Ruby, Rails, Javascript, JSON, jQuery, AJAX, ActiveRecord, PostgreSQL, API integration, RSpec, Jasmine, CSS, Bootstrap, and HTML.
- Participated in Engineering Empathy workshops to strengthen communication, feedback, teamwork, and empathy abilities.

### BOOKKEEPER

Revolutions Bookkeepers | 2016-2017

- Developed systems to track, log, and organize monetary transactions.
- Ran payroll and filed taxes for each business.

### EVENT SECURITY LEAD

City of Austin | 2013-2016

- Preserved event integrity by providing security at entrances and exits, and escorting VIPs throughout the property.

### VISUAL MANAGER

Banana Republic Inc. | 2011-2013

- Delegated tasks to a five-person team that deployed marketing strategies to create a more shopper-friendly experience.
